Knowledge – A good understanding and working knowledge of the landscaping, grounds maintenance or forestry industry is essential.

Experience – The candidate will have a minimum of 5 years' experience within a relevant discipline i.e. landscaping, grounds maintenance or forestry together with suitable experience of leading and supervising teams.

Skills – Good work ethic with the ability to work as part of a team
Enthusiastic and motivated
Ability to communicate efficiently with team members and clients
Full UK Driving Licence is essential (licence to tow a trailer would be preferred but not essential)

Job Description

Main Duties – The successful candidate will supervise and work with our existing teams undertaking a wide range of landscaping and grounds maintenance contracts throughout the region. Reporting to our existing team of contracts managers, typical duties will include setting teams to work, supervising quality and productivity along with ensuring that health and safety requirements are being fulfilled. The majority of the work will be based within central and southern England. Candidates should be aware that working away from home may be required to suit individual contract requirements. Candidates should also be aware that the role will involve the use of plant, machinery and equipment and will include physical exertion (manual handling etc.) on a regular basis.

Training Delivery – Where required additional training will be delivered to the candidate through a combination of in-house training and external training providers. These new found skills / experiences will be backed up with recognised qualifications. Typical qualifications that may be undertaken are:

Site Supervisor Safety Training Scheme (SSSTS)
CSCS Card
DVLA Trailer Training
Emergency First Aid at Work
SPA Quarry Passport
